Copyright ownership

The following steps will establish who has copyright ownership for the work.

After we have identified the relevant copyright owners, we will provide instructions on how the license(s) can be signed and submitted.

Do you own the copyright to this work?

Please select and confirm from the following options

☐ Yes, I own the copyright to this work
This is the correct selection for many works

In most academic and healthcare institutions, faculty retain the copyright for work that they have authored. Please check with your institution to see if different policies apply.

☒ No, I do not own the copyright to this work
Another party may own the copyright to this work

This can apply if:

- This work was completed as part of official duties during the course of employment. Examples can apply:
 - Local government agencies (U.S., U.K., etc.)
 - Private companies
 - Intergovernmental Organizations (IGOs) or Non-governmental Organizations (NGOs)
- There is a related clause outlined in the original statement of work
- The work has been contracted or 'made for hire'

Please specify who owns the copyright for this article

The answer to this question will tell our system whether you are authorized to sign this form yourself, or if you will be required to obtain another signature in order to legally transfer or retain copyright.

☒ **Contributor-owned work**
This is the correct selection for most authors. It is customary in most academic and healthcare institutions for faculty to retain copyright for articles that they have authored. Please check whether different policies apply in your institution.

☐ U.S. Government work
Applies only if your work was authored as part of your official duties as a United States federal government employee; such works are in the public domain in the US.

☐ U.K. Government work
Applies only to employees of the U.K. Government.

☐ Non-Governmental Organization work
Applies only if the work was carried out during the course of employment by a Non-Governmental Organization.

☐ Other Government work
Applies only to government employees outside of the U.S. and U.K.

☐ Company/institution-owned work
This does not typically apply to most universities and academic institutions. Applies when an organization, often a commercial corporation, owns the copyright of a work either because there is a specific clause in the author's contract of employment that states the company/institution's ownership of its employees' intellectual property, or it has been contracted ('made for hire').

- 저자는 저작소유권 옵션을 확인할 수 있습니다.
- 해외 공공기금에 의한 출판물 및 저작권 협약이 있는 특별 케이스가 아닐 경우, 저작자 소유(Contributor-owned work)를 선택합니다.
